

Offstreet Payments

Flexible, Secure, Built for Modern Parking Operations

Payments, Your Way

Offstreet supports multiple payment configurations so you can choose what works best for your organization.

Stripe

The fastest route to going live, typically within days rather than a full procurement cycle. Offstreet acts as merchant of record and remits your revenue on an agreed schedule.

Your existing gateway

Keep your current processor. You stay merchant of record, funds settle directly to your account, and Offstreet takes no share of your processing fees or interchange. A separate \$0.20 platform fee applies per successful transaction. Eleven gateways are integrated today:

CASHNet

Elavon

Cybersource

NMI

Worldpay

Worldpay US

Authorize.net

First Data

Bluefin

Heartland

Bring your own

If your gateway isn't listed, speak with your account manager. New integrations are scoped individually, and you'll receive a written timeline before any commitment is made.

Process + Timeline:

How to get payments implemented

01

Talk to your account manager

Pick a path and confirm your gateway is supported · same week

02

Merchant agreement approved

The long pole — procurement and legal set the pace · 1-4 weeks

03

Credentials issued and connected

You supply gateway API credentials; Offstreet configures and tests · 2-5 days

04

Start collecting payments

Stripe path can reach this in under a week end to end

What we need from you

Gateway API credentials, your merchant account details, and a signed amendment. Offstreet handles configuration and testing from there.

Ready to Learn More?

Get in touch with our team or your Account Manager to explore the right payment setup for your operation.

Offstreet Payments

What you get either way

Cardholder data never touches your systems, payment capture is hosted by Offstreet, which keeps your PCI scope to a minimum

Every transaction is tied to a registration, plate and permit, and exports cleanly for reconciliation

No app for guests to download, payment happens in the browser, typically in under a minute

Compare the two paths

	STRIPE	GATEWAY
Card Payments	Yes	Yes
Apple Pay	Yes	No
Google Pay	Yes	No
Saved Cards	Yes	Yes
You are the MOR	No	Yes
